

Luggage tag

Sankei's tag is going to be seen at airports around the world!?

IATA (International Air Transport Association) decided the use of RFID for all luggage tag from 2024. SANKEI joined Japanese promotion group, ARTA (Airport RFID Technology Alliance) in 2018, and developing our products with Itochu Corporation for the day.

We got certification by ARTA with the successful result of the test that was conducted for flight ANA875 (Sentorea to Hon Kong) on January 27th, 2020. We will continue to work for introduction of RFID luggage tag in 2024.
